 **Fernando Dreyfus** 19:34

 se ha unido a #authorizations-celsius-stakehound. Además, Harumi y Roni Pavon se han unido.

 **Fernando Dreyfus** 19:36

 Hello! Invites have been sent to the Stakehound members. Thank you all!

 **Harumi** 19:56

 Thank you Fernando! This is a channel to talk about staking ETH as Roni and I are only the authorized personnel and have Albert and Edgars on the "recipient" end

 **Slackbot** 20:04

StakeHound has joined this channel by invitation from Celsius.

 **Albert Castellana** 20:04

se ha unido a #authorizations-celsius-stakehound por invitación de Fernando Dreyfus. Además, Fernando Dreyfus se ha ido.

 **Albert Castellana** 20:15

Hi everyone!

 Edgars Nemše Hi all!

1 de febrero de 2021 ▾

2 de febrero de 2021 ▾

 Harumi 03:49  
 Edgars and Albert, as I have chatted with Albert, I like to move forward with minting 25k ETH to start. Since we haven't done this with you, I want to see how this goes with this quantity

We are only the authorized personnel (Roni and myself) to take coins from you, so this is one and only the channel to do this business. Under my direct command, there will be people on the coin deployment desk that will be touching the coins

 Edgars Nemše 10:49  
Hi Harumi, that sounds good. I just want to confirm with you that the API proposal for buying stETH I've discussed with Dennis is fine with you as well. He suggested the second option listed in the document would be a good fit for you

At a high level:

- You give us a list of one or more whitelisted addresses you will be sending ETH from
- For each of those addresses, you also specify a corresponding address you would like to receive your stETH at
- Whenever you send ETH to our address from one of those whitelisted addresses, our system will issue you stETH to the matching address in our list

From your side it doesn't need to be automated, but it will give you a clear path to do so in the future if you want to

Fernando Dreyfus 21:40 Doc 71-7 Filed 09/15/23 Entered 09/15/23 16:30:44 Exhibit G

Pg 4 of 5

C se ha unido y se ha ido de #authorizations-celsius-stakehound. Además, Roni Pavon se ha ido. jason y Connor Nolan se han unido.

Harumi 21:51

C Just for the record 1) Yes, I think this API method works 2) Jason will have to do a light KYC first but will mint 10k 3) we will separately mint 25k stETH

Jason and Connor can take it from here and I will be just reading the convo as it progresses

Albert Castellana 21:53

Thanks for bringing everyone up to speed @Harumi - @Edgars Nemše @Redouane please let me know if you have any doubts !

Redouane 21:53

se ha unido a #authorizations-celsius-stakehound por invitación de Albert Castellana.

jason 23:00

C @Albert Castellana I just called Harumi— confirmed that company (@Connor Nolan ) will handle 2 separate mintings and direct the minted coins to 2 separate addresses given to you by @Harumi  
Thanks

Connor Nolan 23:01

C these will be splits of 10k and 25k ETH

Albert Castellana 23:25

Understood, so just for the record, this is Celsius's ETH being exchanged for stETH that will be sent directly to Celsius. (please @Connor Nolan confirm)

We will need the two addresses that you want those tokens to be sent to and you can send the eth to 0x607ebC82329D0CAc3027B83d15e4b4E816F131b7 (please @Edgars Nemše confirm), we will mint the stETH manually once the transfer is completed.

 sent plz confirm amnt received

3 de febrero de 2021 ▾

 **Edgars Nemše** 00:23

Confirmed, I see it in our accounts

0.01 ETH

 **Connor Nolan** 00:28

 i sent that test from a different address from the one given above, apologies. All rest will come from there

 **Edgars Nemše** 00:30

I see the rest as well

Starting the mint on our end

Done

<https://etherscan.io/tx/0x211182df69d6b20c598c639ca211a632d87a335f18bec5a5d68d20a64bef5d70>

 **Connor Nolan** 00:37

 received thanks

 **Harumi** 00:39

 This is absolutely the fastest minting/redemption I have seen

 **Albert Castellana** 00:42

Thank you all for your support [@Harumi](#) [@Connor Nolan](#) [@jason](#) and [@Edgars Nemše](#)

We'll keep you posted as we setup the nodes and get everything up and running. The yield will be lower for the first few weeks as the nodes take a while to get online, but should be up to speed soon enough.

 **Connor Nolan** 00:44

 great thanks!

 **jason** 00:45
